Donor # 4057
Interview Notes

Donor 4057 struck me as reserved and sweet. He has an endearing smile that suggests his youthful bashfulness. He was thorough and methodical in our interview, providing concise and thoughtful answers to my questions. He has a warm quietness to him, and as he got to know our staff, his shyness faded and he really opened up. He is a good listener and has a lovely laugh.

Donor 4057 has cute puppy-dog eyes and an adorable bowl-cut hairdo. His skin is very clear, eyelashes long, and eyes round and blue. He had a casual but clean-cut look - sporting tapered khakis and a t-shirt. He has a sleek and lanky build, high cheek bones, and an attractive jaw.

Although a quiet presence in our conversation, donor 4057 is very outgoing on the field. He plays competitive Ultimate Frisbee on a college team during the school year and with a club team over the summers. He describes himself as competitive and seems very serious about his sport. His team is hoping to make it to Nationals this year.

Donor 4057 has a grounded and laid-back feel to him: going with the flow but bringing his own sense of self to the table. He mentioned his interest in being an emergency medical technician with calm confidence. He additionally described his recent commitment to vegetarianism humbly, but with self-assuredness, noting the moral reasons for his decision. Donor 4057 seems to be a person of few words: a clear and methodical thinker, as well as a kind and gentle man.

Interviewer: Michelle Borok
