Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle cell anemia/thalassemia: Negative

Other: CMV urine culture negative, donor is presumed non-infectious

DONOR NARRATIVE: Donor 3591

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am an outgoing individual. I enjoy small parties with good friends. My friends tell me I'm mature for my age and since most of them are 4-8 years older maybe they have a point. In my opinion the point of life is pursuing what you consider beautiful, be that art, biology, or math. My 2 favorite books are Siddhartha, and Faith of the Fallen. I love to meet new people and go new places. I prefer to be active mentally and physically which makes me truly enjoy my moments of relaxation.

What are your special interests and talents?

I am a rower. I race singles (aka sculls). I love all forms of dance, especially Jazz. I practice fire poi. I have in the past studied Ju-Jitsu and am planning on taking Hapkido & Capoeira classes. I love to read & write poetry. I draw both dynamic & comic art. I love all forms of Massage. I'm currently pursuing a Masters in Physical Therapy.

[This donor clarified with a healthworker that he is currently a licensed massage therapist, is working toward his BA in Kinesiology with plans to become a physical therapist.]

How would you describe your enjoyment of and skills in the following areas:

math: **I can do it but it isn't my favorite subject**

mechanical: **I love to build things with my hands**

athletic: **I'm good at them, so of course I enjoy them**

musical, artistic, creative: **I'd say I'm at the high end of the middle. I'm not a genius in any one thing, but I'm "good" at most**

language (what languages do you speak?): **I know sign language and I'm learning French**

What are your goals and ambitions in life?

I love to help people feel good, so I study massage & I plan on becoming either a physical therapist or a doctor of natural medicine. I also like to feel good my self so I plan on being active until the day I die and learning right up to the last breath.

Why do you want to be a sperm donor?

I'm a student which means I can't work full time of all the jobs I looked at this is the only one which helps people and pays well at the same time.

Did you choose to be an identity-release donor? yes no. Why did you make this choice?

I don't think I could emotionally handle knowing a child of my genes, yet not really being a part of their life.

What message would you like us to pass on to the people who are getting your sperm?

I am stubborn and strong willed it runs in the family. Encourage your child in any direction they show interest but stay firm and don't give them an inch because I have always taken the mile.
