Heart: **PGM: Heart failure, cause of death at 58**
Neurological: **MGF: Cerebral hemorrhage at 50, no warning signs, cause of death**

DONOR LAB RESULTS

Chlamydia: Negative	Gonorrhea: Negative	Syphilis: Nonreactive
HIV 1 & 2: Negative	CMV total antibody: Negative	
Hepatitis B: Negative	Hepatitis C: Negative	HTLV 1 & 2: Negative
Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle cell anemia/thalassemia: Negative

DONOR NARRATIVE: Donor 3927

How would someone describe your personality?

A very personable and understanding introvert. They would probably say that I am very curious and can be serious at times. A friend would consider me loyal and very giving. An enemy would consider me formidable and resolute. I'd like to think people who know me consider me very goal-oriented.

What are your special interests and talents?

Sports, especially baseball and basketball. I love computers and math. I enjoy the outdoors, especially the beach, camping, and riding my bicycle. A good movie is rare, but when found enjoyed.

I usually excel at sports, math & science, and diplomacy. I like to think I'm a good leader and naturally assume a leadership role when necessary.

How would you describe your enjoyment of and skills in the following areas:

math: **Love it. Above average. I have the most profound interest in the Riemann Hypothesis.**

mechanical: **Moderate. I don't actively pursue mechanically inclined endeavors, but I don't have any problem fine-tuning and maintaining my bike.**

athletic: **Love it. Above average. Pitched championship game for my L.L. district's first ever championship. Baseball All-Star throughout L.L. Played H.S. baseball. Great Grandfather and Grandfather were professional baseball player, played Major League Baseball.**

musical, artistic, creative: **Enjoy. I like drawing and painting. I tend to be more of an art viewer rather than creator (except Math). Who doesn't like music?**

language (what languages do you speak?): **English only.**

What are your goals and ambitions in life?

To be the best father on Earth! I love children and being a mentor to them. Part of being the best father on Earth means being the best Husband too! Basically, I want to create a happy, healthy environment for my future family. To finance this goal I hope to one day own a software development / consulting company, or work on creating / designing video games. Anything with computers would suffice. Of course solving the Riemann Hypothesis wouldn't be bad either. It's solution is worth 1 million dollars! In the end, I just want to be a happy, healthy family man.

Why do you want to be a sperm donor?

I know how strong my desire to be a father is, so whatever I can do to help somebody else fulfill their dream of becoming a father or mother is great by me.

Did you choose to be an identity-release donor? **Yes** Why did you make this choice?

The child has a right to know about his biological father.

What message would you like us to pass on to the people who are getting your sperm?

I am only performing the easy part, that of providing the required material. The hard, and far more important part, that of molding and raising a person that sets a positive example for the rest of society, is yours, and yours alone. I'm confident that a couple like yourselves, who took this extra step in order to fulfill your dreams of parenthood, can provide the love necessary for a successful upbringing.
