Urinalysis: <b>Normal</b>	Chem panel: <b>Normal</b>	CBC: <b>Normal</b>
Cystic Fibrosis: <b>Negative</b>	Tay Sachs: <b>N/A</b>	Sickle cell anemia/thalassemia: <b>Negative</b>

Other: **CMV urine culture negative, donor is presumed non-infectious**

## **DONOR NARRATIVE: Donor 3935**

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

**I have a large sense of humor and love to make environments fun. I also know where to be serious though, so as not to get out of hand. I am active and a real “go-getter.” I dislike being shy even though I can’t help it from time to time. I’m sort of an adrenaline-junkie, but not in an extreme way. I’m scared of heights but I push myself when I need to. I’m very good at buckling down and getting things done, even though I wait until the last minute. I love school and learning even though it wasn’t always like that. I’ve learned quite a few of life’s lessons the hard way.**

What are your special interests and talents?

**I’ve done martial arts since I was 4 years old and reached 1<sup>st</sup> degree Black Belt in Kosho Rye Kempo before I went to college. I have also played tons of soccer in my life and was a very sought after goalie by select teams around the area. I have been playing bass for around five years and been interested in sound engineering for about 3. Before I found music I was sponsored for skateboarding and for snowboarding.**

How would you describe your enjoyment of and skills in the following areas:

math: **I enjoy math along with being very good at it. I passed Algebra 2 in high school and have touched on calculus in college.**

mechanical: **I didn’t spend much time on this in life but I could tell you how an internal combustion engine works and what high-performance parts you should get for your car.**

athletic: **I’m not as athletic as I used to be. I used to do Martial Arts everyday and play soccer every season, but now I do so just for fun.**

musical, artistic, creative: **I love music and I love being a musical. I play bass guitar but I can play all instruments. I am a horrible drawer.**

language (what languages do you speak?): **A little bit of Spanish**

What are your goals and ambitions in life?

**I love music more than anything. I have been playing bass in and out of bands for about four years. I had a solid band for about 2 years and we broke up so I joined a band from the 80s that recently been reunited and we are touring Europe in April ’08. Other than playing music, I have a passion for sound engineering. I am going to school for it and I plan to do post-production sound for film and possibly go back to school for MA in Film.**

Why do you want to be a sperm donor?

**I absolutely adore kids, and for some reason they like me, too. I may or may not ever have kids of my own, so the least I could do is help out a less fortunate couple who would, otherwise, not have the choice that I do, like I mentioned.**

Did you choose to be an identity-release donor? X yes. Why did you make this choice?

**I have no idea where I will be in 18 years, but I know that if I were an infant of this program, I would love to meet my donor and just see what he’s like; what he does, and where he is in life. And I would love nothing more than to be the person that child contacts.**

What message would you like us to pass on to the people who are getting your sperm?

**I am so glad you have this opportunity. Children are beautiful and full of life and I know you will love parenthood. Raise him/her right, give them everything you never had, show them the world and how to make it a better place so that it’s still here and beautiful for their children.**
