Urinalysis: <b>Normal</b>	Chem panel: <b>Normal</b>	CBC: <b>Normal</b>
Cystic Fibrosis: <b>Negative</b>	Tay Sachs: <b>N/A</b>	Sickle cell anemia/thalassemia: <b>Negative</b>

## **DONOR NARRATIVE: Donor 3963**

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

**I am a very easy going, relaxed, hard working person. I get along with almost everyone I meet. I always try to make a good first impression. I am also very personable and caring. I will always try to help others before myself.**

What are your special interests and talents?

**I am very interested in food and music. I am currently taking culinary classes and hope to one day be a chef at a nice restaurant. I like designing new foods and I will try anything once. As far as the music goes, I have been a DJ for the past six years. I listen to a lot of electronic music and prefer to DJ that type. Also I like to snowboard and pretty much do anything outside. I try to stay as active as possible.**

How would you describe your enjoyment of and skills in the following areas:

math: **I hate doing math, but if I need to do it for school I will. I am a pretty fast learner, so once I get taught how to do a type of problem, I have an easy time with it.**

mechanical: **I am very crafty and can usually figure out how things work. I enjoy this.**

athletic: **I have done track (pole vaulting), soccer, baseball, lacrosse, cross country, snow boarding, skate boarding, dancing and biking.**

musical, artistic, creative: **6 year DJ, love House music. Also have been working recently on making my own music on the computer with a keyboard. I also brew my own beer from time to time.**

language (what languages do you speak?): **A little Spanish**

What are your goals and ambitions in life?

**I hope to one day either work in a restaurant as executive chef, or perhaps own my own restaurant. As I stated already I am in the process of culinary classes and I am loving it. Also, if I can, before settling down at a restaurant I would like to be a professional DJ. That is my ultimate goal; to be a pro DJ before I start working as head chef somewhere.**

Why do you want to be a sperm donor?

**I figure since I have a very good family history of diseases, I should share this with infertile families. I would also like to help people with this unfortunate problem. Also, I would like to one day meet someone who partially came from me, if the family is okay with it.**

Did you choose to be an identity-release donor? **Yes.** Why did you make this choice?

**I would like the child to have the opportunity to meet me if he/she wishes to do so.**
