DONOR NARRATIVE: Donor 4004

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am a very liberal person. I like keeping myself busy and finding out what I am capable of. I want to experience things for myself rather than have some tell me about something. I have a strong sense of humor. I am a people-person, I get a lot of satisfaction out of helping other people. I love animals. I disagree with war. I love Mexican food.

What are your special interests and talents?

My passion is guitar, I have always been very musical. My band is going on a world tour in April of 2008. I was the best pitcher in my baseball league for 3 years. I am a great BMXer and skater. I love learning new things. Skilled with computers. Give great massages.

How would you describe your enjoyment of and skills in the following areas:

math: **I love the satisfaction of solving problems and I am really good in math, but I don't like how time-consuming some math can be.**

mechanical: **I work on bikes and skateboards and love it! Wow, I forgot to mention guitars, I work on those too! In terms of cars... I change my own oil.**

athletic: **Great pitcher in baseball, good biker, skater, used to do gymnastics**

musical, artistic, creative: **Guitar, I love woodshop, drawing is alright.**

language (what languages do you speak?): **I understand a lot of Spanish and Latin**

What are your goals and ambitions in life?

To wrap up my extensive list into a few short words, I would say that I am going to be the next best guitarist/composer (MARK MY WORDS) and enjoy life thoroughly while learning about all areas of life.

Why do you want to be a sperm donor?

World domination! (just kidding) I have good genes and my family has always been proud of that. I want to pass them on and what better way to do it than a sperm bank?!

Did you choose to be an identity-release donor? Yes. Why did you make this choice?

I want my offspring to have access to their genetic background.

What message would you like us to pass on to the people who are getting your sperm?

I am musical, athletic, and more than anything, outgoing.
