Cystic Fibrosis: Negative	Tay Sachs: N/A or Negative	Sickle cell anemia/thalassemia: Negative

*Other: **CMV urine culture negative, donor is presumed non-infectious**

DONOR NARRATIVE: Donor # 4273

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I would be described as very social and outgoing. Recently I have been very focused on the company I helped start a year ago and that is all people have seen of me lately. I love to laugh and have a good time and take all that I can from life. I have a real passion for learning and always pursue new, relevant information.

What are your special interests and talents?

I have played some sort of sport since grade school. Starting with soccer, baseball, football and basketball. I have gotten into tennis and golf but could never get my swing down in either. I have played the drums since high school and love music. I have ridden motorcycles since I was 18 and have begun racing on track the last few years. I love to keep in shape and run 15+ miles per week.

How would you describe your enjoyment of and skills in the following areas:

math: **I enjoy math and have fun playing with numbers. I took two years of calculus even though I probably didn't need it.**

mechanical: **I work on my motorcycles and car, doing all the maintenance myself. I have also worked in construction for years.**

athletic: **Very athletic, I love to keep in shape and I played lots of sports.**

musical, artistic, creative: **Played in my school band in high school and continued playing the drums.**

language (what languages besides English do you speak?): **Partial Spanish and taking Japanese.**

What are your goals and ambitions in life?

To build a business or legacy that will live on long after I am gone. With this legacy I want a large family who I can pass it on. I want to build something that is big enough that all my friends and family can benefit from it.

Why do you want to be a sperm donor?

Money. . . . When you are trying to build a start-up company you have to pull in money from anywhere you can.

Did you choose to be an Identity-Release® Program donor? Yes ___No. Why did you make this choice?

I am always game to meet new people, it adds to life's experience. To me it would be as if a long lost relative found me and wanted to see what we have in common.

What message would you like us to pass on to the people who are getting your sperm?

I feel like I just wrote a book about myself. But this doesn't really tell you who I am. I will say that I have always been very energetic and a little wild as a young child. So if you pick mine be ready for a kid who wears you out. ☺ I wish you the best of luck!
