Tay Sachs: **N/A or Negative**

Syphilis: **Nonreactive**

HTLV 1 & 2: **Negative**

CBC: **Normal**

Sickle cell anemia/thalassemia: **Negative**

Donor 4352

DONOR NARRATIVE: Donor # 4352

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.). **I have been described as creative, funny, dependable, smart, handsome, and unique. I happen to agree with these descriptions! I would have said a few years ago that I fell on to the more introverted side of the scales, but lately I feel perhaps a bit more on the extroverted side.**

What are your special interests and talents?

I'm a very right-brained kind of person, so I'm a very interested in a variety of creative endeavors. I'm a talented, left-handed artist, whether it be drawing or painting. I love music, as well. I can play a handful of instruments reasonably well, none great. I also love to cook and garden. I'm definitely an animal person, too. I have a cat and am hoping to get a dog soon.

How would you describe your enjoyment of and skills in the following areas:

Math: **I'm great at math, but I tend to think of problems visually.**

Mechanical: **I like to find out how things work. I was obsessed with Rube Goldberg as a kid.**

Athletic: **This is not really my thing. I'm not very competitive, although I like working out.**

Musical, artistic, creative: **This is where I spend most of my energy in life. I need creativity daily to feel satisfied.**

Language (what languages besides English do you speak?): **None, sadly.**

What are your goals and ambitions in life?

Eventually, I would like to start my own family. I want to be financially stable enough to have a good home life and be able to travel. I want to feel like I'm constantly learning about life and people. My career is more of a means to an end than an end to a means.

Why do you want to be a sperm donor?

Well, lets get the obvious out the way first. I could use the compensation to pay down my student loans. But beyond that, I realize there are families out there that have to jump through hoops just to have a chance at becoming parents. I'm confident that for all of the effort they have to put in, they will be good parents and offer a good home. I'm more than happy to help out in anyway possible for them, especially when it's so easy for me.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I put myself in their shoes. If I had any issues or curiosities I couldn't have answered, it would definitely get to me.

What message would you like us to pass on to the people who are getting your sperm?

I whole-heartedly wish you the best! Obviously there was something in my information packet that spoke to you, and I hope it is reflected in any future members of your family.
