Religion: **agnostic**

Blood group/Rh: **A-**

Baby photo available: **No**

Other defining features: **Long eyelashes, very full lips. Mix of Mic Jagger and Angelina Jolie**

FAMILY MEDICAL HISTORY KEY:

D donor	Ch child	F father	M mother	S sister	B brother
Co cousin	A aunt	U uncle	MGF maternal grandfather		
MGM maternal grandmother		PGF paternal grandfather		PGM paternal grandmother	

FAMILY MEDICAL HISTORY

Allergies: **D: Pollen, cat allergy early childhood, treated with OTC medication, resolved. D: Nut allergy, diagnosed at birth, treated with milk, ongoing.**

Breast Cancer: **MGM: Breast cancer at 34, surgery, tumor removed, resolved.**

Heart: **F: High Cholesterol at 50, treated with prescription meds, OTC and diet, resolved. MGM: High Blood Pressure. diagnosed at 60, prescription medication, managed.**

Mental Health: **MA: Depression at 35, prescription meds and therapy, managed.**

Muscles/Bones/Joints: **PGF: Osteoporosis at 60, treated with prescription medication, managed.**

Respiratory: **PGF: Asthma at 45, treated with prescription, managed.**

Sight/Sound/Smell: **R-20/15, L-20/25. S: Dyslexia at 13, tutored and reading classes, managed.**

Skin: **D: Acne at 13, resolved. S: Eczema at 8, OTC cream, resolved at 15. PA: Eczema at birth, cortisone, managed. Acne for other family members listed, all resolved.**

Cancer: **MGM: Breast Cancer.**

DONOR LAB RESULTS

Chlamydia: **Negative**

Gonorrhea: **Negative**

Syphilis: **Nonreactive**

HIV 1 & 2: **Negative**

CMV total antibody: **Reactive***

Hepatitis B: **Negative**

Hepatitis C: **Negative**

HTLV 1 & 2: **Negative**

Urinalysis: **Normal**

Chem panel: **Normal**

CBC: **Normal**

Cystic Fibrosis: **Negative**

Tay Sachs: **N/A**

Sickle Cell Anemia/Thalassemia: **N/A**

***Other: CMV total antibody: Reactive followed by a CMV IgM is Negative-** this combination shows a historic CMV exposure and donor is presumed to currently be non- infectious.

DONOR NARRATIVE: Donor # 4460

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I consider myself to be lively and extroverted. I've been told I tend to be on the crazy train (but definitely the 'live life to the fullest', not so much institutional and straight jackets) I sincerely try to listen to and respect everything, even if I don't agree. I am light hearted and find meaning and worth in the simplest things, (good home, cooked meal, w/ friends, etc.). That is not to say I don't have greater inspirations.

What are your interests and talents?

My talents certainly focus quite a bit on people community. Being social, making friend, building community, organizing events and engaging both casually and formally. Non-violent communication intro and intravertively has proven a wonderful skill I've developed. I also love to write short stories, work on/for radical social justice, I'm a bomb cook (total foodie); skiing is a passion, as is art. Accordion and yoga/cycling.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

My life ambitions are definitely central to my personal happiness. That entails graduated with a degree in social justice and being part of a homeless queer youth center. This could be realized in any city which is conducive to my adventurous nature. I also want to be performing drag queen on the weekends, and I want a big garden with a healthy compost!

How would you describe your skills and interests in the following areas?

Math: Absolutely no interest. I can do math if I pay attention but I have no motivation to pay attention because I loathe it! It is the script of satan.

Mechanical: I am pretty proficient mechanically. As a kid I always dismantled and reassembled everything I could. As an adult I enjoyed working on bikes know a few things about cars.

Athletic: In my puberty years I had a bit of baby fat so I wasn't super athletic. I was on soccer teams, track and skied every weekend. Now I hike every day, practice yoga and love hiking/scaling! I have a strong healthy body.

Musical, Artistic, Creative: Very creative; have always aspired as an artist. I am crafty and love DIY art/craft time. Musically I've played piano, violin, and am currently on the accordion.

Language (what languages besides English do you speak?): French. My grandmother taught me as a babe. Although my French has grown rusty, I pick it up very quickly and have ease picking up other verbal languages.

Writing: Love writing! I have always been a strong writer. I've received multiple awards, and considered becoming a writer/lit major.

Literature: I've been an avid reader since I was a kid. I was often that awkward kid. I was often that awkward child in an empty room at a

birthday party with my nose in a book. I've recently been reading a lot of social theory.

Science: I find it interesting and enjoy hands on experiments. I'm more for organic biology, anatomy, environmental an astronomy. Not huge on chemistry (because of math! Haha!)

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: *Donnie Darko...or...Hedwig and the Angry Itch*

Book: **Communist Manifesto** (though I don't identify as a communist)

Album: **I know its cliché, but... *The Dark Side of the Moon*- Pink Floyd**

What are some of your reasons for becoming a sperm donor?

Realistically, I need the money. Besides that, I'm pretty sure I'm never having children... so if I can help some queer couple out with my good genes, I'm so down!

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

Firstly, if I were the offspring of a donor: I would like to know so I'm not going to keep that right from anyone. Secondly I do not plan on having children myself but I will be interested to see how my genetics shine through in an offspring and perhaps develop a "god-father" like relationship.

Is there anything else you would like to share with participating families and offspring?

I can't even begin to imagine how much of a weighted decision choosing the genetic material of your potential child must be.
