Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: Negative	Sickle Cell Anemia/Thalassemia: N/A
Ashkenazi Jewish Panel: Negative		

DONOR NARRATIVE: Donor # 4500

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

The philosophy that I carry with me every day is that life is precious and that there are no guarantees: you must be bold, brave, and good to achieve a positive outcome. I believe that my personality and lifestyle represent that dual philosophy. I would classify myself as an introvert with extroverted tendencies. I love communicating and interacting with people in a meaningful way and derive a lot of satisfaction from my exterior relationships. However, I also value time that I spend alone, and am able to reenergize that way to meet a new challenge.

I am very conscious of never taking myself too seriously. Life is too short and mistakes will be made. The important thing is how we react to adversity and move forward, stronger for it. I try to let my inner child out as much as possible to play. At the same time I am very driven and have specific goals I would like to accomplish in this life. Those include owning a video production business, travelling the world, and raising a family.

What are your interests and talents?

I am a photographer and video producer. I am most alive when my eye is looking through a lens. It invigorates and excites me like nothing else can.

I am also an avid bicyclist, a blue belt in Brazilian Jiu Jitsu, and competitive poker player. I have travelled all over the world and am always looking forward to the next adventure. I am also a lover of cinema and a well-made meal.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?
My ultimate goal is to be able to operate my own video production company creating documentary films that inform a global audience about the ever-evolving global landscape. In 5 years I hope to be working with media professionals on documentaries and in 10 years I hope to have set up a video production company in my own name.

How would you describe your skills and interests in the following areas?

- **Math: I love puzzles, statistics, and patterns but I have never been really big into math. I did well with math in High School but aside from a statistics class didn't take any math in college.**
- **Mechanical: I operate video equipment often, and am always modifying things to make better equipment. I definitely enjoy working with my hands.**
- **Athletic: I consider myself to be very athletic and love playing many different kinds of sports for fun.**
- **Musical, Artistic, Creative: I think I am very creative. I have a good eye for photography, videography, and color. I do not play any instruments, though I am definitely looking to learn.**
- **Language (what languages besides English do you speak?): I speak Russian fairly well.**
- **Writing: I think I am a good writer. I can express things well and have a strong vocabulary. I don't write very often but when I do give a lot of energy and focus to writing with quality.**
- **Literature: I am always reading at least one book. I don't plow through books very quickly, I usually pick one up before bed or when I'm on a train or airplane.**

- Science: **I observe science from a distance. I find physics, biology, and chemistry fascinating but I don't really have a mind for applying science to my everyday life.**

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: **Almost Famous**

Book: ***Ender's Game*, Orson Scott Card**

Album: ***The Suburbs*, Arcade Fire**

What are some of your reasons for becoming a sperm donor?

I believe that this is a mutually beneficial exchange. I feel strongly that I am a good candidate for sperm donation because my family health history is very strong and I am also a very healthy and happy person. I also have full confidence in TSBC as a world-class institution and feel very comfortable being a part of this process with them.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice? **I feel that the offspring of a donor has the right to know who that person is. I think it can and should be positive experience for all parties involved. I also believe that if I was in their position I would want to have the option of knowing.**

Would you like more information on our Identity-Release® Program? Yes No

Is there anything else you would like to share with participating families and offspring?

Just that I am very comfortable with this process and will make myself available if and when I am sought out through the Identity-Release® Program.
