DONOR LAB RESULTS

Chlamydia: Negative	Gonorrhea: Negative	Syphilis: Nonreactive
HIV 1 & 2: Negative	CMV total antibody: Reactive*	
Hepatitis B: Negative	Hepatitis C: Negative	HTLV 1 & 2: Negative
Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle Cell Anemia/Thalassemia: Normal

***Other:** CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non- infectious.

DONOR NARRATIVE: Donor # 4503

****The content of this narrative has not been altered by TSBC staff and reflects the original written work of the donor****

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I am considerably extroverted and social. I pride myself on my creative ambition to further my artistic community. I am curious about many other prospects however, and how the general populous leads their lives. I am a social critic as well as a impartial observer. I am serious about my art and the art of my community.

What are your interests and talents?

I love and adore music first and foremost. I am an accomplished guitarist involved in multiple music outfits. Drums are my newest hobby. I am an avid biker, and traveler. I believe that exploring America and subsequently the world is one of the most vital ways to spend one's time. I write short stories and have won multiple awards for me photography as well.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I am currently planning the release of a literary journal that compiles local artists and writers. While any primary goal is to further myself as a musician, I also aim to backpack through Northern Europe on my own and open a large scale venue/restaurant in San Francisco within the next 5 years.

How would you describe your skills and interests in the following areas?

Math: Adequate and moderately skilled. Not my strong suit, though I've particularly excelled in calculus and statistics.

Mechanical: Briefly studied mechanical engineering. Am knowledgeable to a degree, but not extensively. I am certainly passionate about it as a science.

Athletic: I am particularly fast and athletic due to a childhood conditioned in various sports. Recently I've become very involved in organized baseball and recreational running.

Musical, Artistic, Creative: Making and listening to music is my primary passion; writing fiction and establishing myself as a all around artistic voice as well.

Language (what languages besides English do you speak?): Some French and Spanish.

Writing: I am a creative short-story writer. I also dabble in meditative poetry and theoretical essays regarding American society.

Literature: I love 19th century American literature and have studied it extensively, though short fiction is what I am deeply engaged in.

Science: Social services is my most confident field, though biological sciences such as Anthropology was a major academic focus.

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: **Annie Hall/Woody Allen**

Book: **Of Mice and Men/John Steinbeck**

Album: **House of the Holy, Led Zeppelin**

What are some of your reasons for becoming a sperm donor?

I believe that nothing should keep anyone from starting a family. Also feel that some of the most compassionate people I've met have been unable to. I want to change that.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I want to give me and the offspring an opportunity to learn as much about themselves (through their family) as possible. I believe it is everyone's right.

Is there anything else you would like to share with participating families and offspring?

Donor did not answer.
