### DONOR PROFILE: 4519

The past and current personal and family medical history, physical examination, and laboratory test results determine that donor **4519** is eligible and approved for semen donation at The Sperm Bank of California. This profile was prepared in **February, 2011**.

### PERSONAL INFORMATION

Identity-Release<sup>®</sup> Program: **Yes**

Month/year of birth: **10/1987**

Education: **B.A. Biology**

Current occupation: **Data Analyst**

### PHYSICAL CHARACTERISTICS

Height: **5'8**

Weight: **182**

Hair color: **Light brown**

Hair type: **Straight**

Eye color: **Right eye blue/hazel, Left eye brown/hazel**

Complexion: **Fair/rosy**

Body type: **Medium**

Ethnic origin: **Polish, Scottish**

Religion: **None**

Blood group/Rh: **O+**

Baby photo available: **No**

Other defining features: **Cleft chin, dimples, high cheekbones, receding hair line/balding as noted by Donor. Looks like Jason Statham as noted by Donor**

### FAMILY MEDICAL HISTORY KEY:

<b>D</b> donor	<b>Ch</b> child	<b>F</b> father	<b>M</b> mother	<b>S</b> sister	<b>B</b> brother
<b>Co</b> cousin	<b>A</b> aunt	<b>U</b> uncle	<b>MGF</b> maternal grandfather		
<b>MGM</b> maternal grandmother		<b>PGF</b> paternal grandfather		<b>PGM</b> paternal grandmother	

### FAMILY MEDICAL HISTORY

Blood: **M: Anemia at 18, diet and supplements, managed. F: Anemia at 43, diet, supplements, managed.**

Breast Cancer: **PGM: Breast Cancer at 88, surgery and chemo therapy, currently in remission.**

Gastro-intestinal: **PGF: Gallstones at 49, medication, resolved. MA: Hepatitis B at 40, no treatment, condition resolved on its own. MGF: Gall Bladder Cancer at 51, surgery, chemo, full recovery.**

Genital/Reproductive: **PGF: Prostate Cancer at 55, chemotherapy, ongoing until death at 57.**

Heart: **PGF: Heart failure/heart attack at 57 (Rheumatic fever at 6 led to lifelong heart problems), no treatment, cause of death at 57.**

Metabolic/Endocrine: **M: Thyroid Disease- Hypothyroid at 47, medication, managed. PGM: Thyroid Disease, Hypothyroid, medication, managed. MGM: Diabetes, at 67, diet, medication, managed.**

Neurological: **MGM: Dementia at 70, treated with nursing care, condition slowly progressing. MGF: Stroke at 74, no treatment, cause of death at 74. PGM: Stroke at 96, no treatment, cause of death at 96.**

Respiratory: **F: Hay fever at 6, treated with over the counter medications, outgrew by 18. MGM: Emphysema at 49, treated with an inhaler and cessation of smoking. MGM: Pneumonia at 72, treated with hospitalization, cause of death at 72.**

Sight/Sound/Smell: **D: R-20/20 L-20/13. PGM: Glaucoma at 63, medication, managed.**

Skin: **D: Acne at 14, outgrew at 19. B: Acne at 14, outgrew with no scarring at 17. F: Acne at 16, treated with face washing, mild-moderate until 21. F: Skin Cancer (Carcinoma) at 66, treated with surgical removal, no recurrence. PGM: Skin Cancer (Basal Cell Carcinoma) at 60, treated with surgical removal, condition resolved.**

Cancer (see above): **F: Skin Cancer (Carcinoma) at 66, treated with surgical removal, no reoccurrence. PGM: Skin Cancer (Basal Cell Carcinoma) at 60, treated with surgical removal, condition resolved. Gall Bladder Cancer at 51, Treated with surgical removal, and chemotherapy, full recovery. PGF: Prostate Cancer at 55 treated with chemotherapy, ongoing until death at 57. PGM: Breast Cancer at 88, treated with surgery and chemo therapy, currently in remission.**

#### **DONOR LAB RESULTS**

Chlamydia: <b>Negative</b>	Gonorrhea: <b>Negative</b>	Syphilis: <b>Nonreactive</b>
HIV 1 & 2: <b>Negative</b>	CMV total antibody: <b>Non-Reactive</b>	
Hepatitis B: <b>Negative</b>	Hepatitis C: <b>Negative</b>	HTLV 1 & 2: <b>Negative</b>
Urinalysis: <b>Normal</b>	Chem panel: <b>Normal</b>	CBC: <b>Normal</b>
Cystic Fibrosis: <b>Negative</b>	Tay Sachs: <b>Negative</b>	Sickle Cell Anemia/Thalassemia: <b>N/A</b>

#### **DONOR NARRATIVE: Donor # 4519**

(The content of this narrative has not been altered by TSBC staff and there for reflects original written work of the Donor)

Describe your personality:

**In terms of personality, I'm somewhere in between an extrovert and an introvert. I spend a lot of time with my close group of friends, and am sociable and outgoing around other people, but I also enjoy being alone and have always loved reading. I'm much more funny than serious, but out of my brothers I'm probably the most analytical. I was also the most easy going and laid back one growing up and have always been a pretty mellow person.**

What are your interests and talents?

**I'm very athletic and box, surf, run, and was a state champ in cross country and went to the Junior Olympics in ski racing. I also love reading (fiction and nonfiction), listening to NPR, and watching scary movies. I am extremely curious and love to tinker with stuff. I rebuilt a classic car in high school and, now that gas is unaffordable, I write software as a side hobby.**

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

**In 5 years I will probably be in med school, friendless, alone, and getting 2.5 hours of sleep a night. In 10 years, I'll be a doctor and things will be looking up. I would like to work around the world and ideally would be working abroad with an NGO.**

**My major goal in life, and the culmination of four years of brutal work, is to practice medicine. I love working with people, am passionate about science, and was always the most caring of the brothers, so working as a doctor has always seemed like the natural career for me.**

How would you describe your skills and interests in the following areas?

**Math: While I am excellent at mental arithmetic I generally find math to be uninteresting and never pursued it very far in college. I don't struggle with it, but I find it boring and more of a means to an end than an area of study.**

**Mechanical: I have always loved building and tinkering. I enjoy the entire process of sketching out a design, and then following that through to a finished product.**

**Athletic: Like the rest of my family, I am very athletic. Our dad started us on skis when we were three and it's been one of my biggest passions in life ever since. I also competed in track, cross country, and am an amateur boxer.**

**Language: I speak Spanish and Catalan conversationally, read Latin, and have always had a gift for language. While I travelled in Africa and India, I was able to quickly get to conversational level in the local language very quickly.**

**Writing: Unlike my parents, I don't particularly enjoy writing. I can write well but because I don't enjoy it I don't expend as much effort on it.**

**Literature: Everyone in my family loves reading. I'm especially lucky because I can read very quickly which allows me to tear through books. In the second grade, when I really got a handle on the whole reading thing, I had read every book in the class room by the middle of the year and had to get sent to the library during free read time to get books.**

**Science: Science dovetails with my love to build and create. To me, looking at a well designed study is like looking at art, a tremendous amount of skill, creativity, and work had to come together. Ever since I can remember I always enjoyed science and it has been a field that comes very easily to me because I have a keen memory and think in a very linear/logical way.**

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: **The Big Lebowski**

Book: ***For Whom the Bell Tolls*, Ernest Hemingway**

Album: ***Homework*, Daft Punk**

What are some of your reasons for becoming a sperm donor?

**I'm pursuing medicine because as much as I love science, I also enjoy helping people and I would like to be able to help people enjoy the comedies, tragedies, and dramas of having children.**

Did you choose to be an Identity-Release® Program donor?  Yes  No

Why did you make this choice?

**I chose to have my identity released because I understand the need to understand yourself through one's biological history.**

Would you like more information on our Identity-Release® Program?  Yes  No

**Donor gave no answer**

Is there anything else you would like to share with participating families and offspring?

**Donor gave no answer**
