## **DONOR NARRATIVE: Donor 3209**

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

**I am very fun-loving, but when the occasion arises I can be serious and devoted. I have a strong loyalty to friends and family and I have never lost my temper with them. If there is a goal that I feel I need to reach, there is very little that can stop me. Setbacks have only strengthened my resolve in the past, which is why I tend to set my sights high. Other than that, I am always very curious, very social and I am more competitive in sports and rivalries than anyone I know. I can't accept second place. I will train and work until I've reached the top.**

What are your special interests and talents?

**I love chess and most intellectual games along with any and every physical activities and sports. I am a natural athlete and excel in pretty much every sport I've tried. I seem to have a knack for business in general; accounting, economics and management have all come to me like second nature. I also love to debate; whether it's politics, religion, or philosophy, I find the viewpoints very interesting.**

How would you describe your enjoyment of and skills in the following areas:

math: **I do not enjoy math, but it comes very easily to me. have never had trouble understanding concepts of any part of my math classes.**

mechanical: **I am good with computers.**

athletic: **I love sports! I ran track for 8 years, cross country for 3, Wing Chun Kung Fu for 1, wrestling for 1, weight lifting for 4, crew for 2, soccer for 4 and pole vaulting for 2 years. My entire family and myself are natural athletes.**

musical, artistic, creative: **I was in choir for 3 years, and until puberty hit, I had quite a few solos. I started a sci-fi book when I was 15 and after college is over I hope to finish it and hopefully publish.**

language (what languages do you speak?): **I have a fair amount of difficulty with new languages. I took French for 2 years and the rest of my family is able to speak it fluently, but I have not been able to.**

What are your goals and ambitions in life?

**My main goal in life is to make the best of my time on earth. I plan to Major in Business Administration, go to graduate school for Finance, then go into business as a Real Estate Developer, where I can be my own boss and work in a field that really intrigues me. I plan to set up my business, then as my future permits, I will find someone that I truly care for and raise children of my own with the same values and morals that my parents had taught me.**

Why do you want to be a sperm donor?

**I feel that I have been gifted with genes that could make any mother proud of her child.**

Did you choose to be an identity-release® donor? \_\_\_yes no. Why did you make this choice?

**At the moment I am not afraid to see a child of my own flesh and blood that I had not raised myself, but in 18 to 20 years, my life will be in a different place and I do not know if I would still feel the same way.**

What message would you like us to pass on to the people who are getting your sperm?

**[donor chose not to answer]**
