Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle cell anemia/thalassemia: Negative

DONOR NARRATIVE: Donor 3664

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am an artistic person who can't help but find the beauty in anything and everything in the world around me. I have a subtle and often sarcastic humor, but I am often well received by those around me. I am constantly finding new music, art and film that I intern share with those around me.

What are your special interests and talents?

I have a number of different interest which I am currently involved in. I am a talented painter and musician. I also enjoy individual [sports] such as surfing and snowboarding. I enjoy reading well written fiction novels and other books that can relate an intellectual metaphor using the story as the medium. I love to travel the world and meet and understand other worldly people.

How would you describe your enjoyment of and skills in the following areas:

math: **It is apparent that the world thrives on mathematics and I understand many concepts, however, I rarely apply my knowledge (consciously) and instead I focus on the art and beauty this world has to offer.**

mechanical: **I am constantly fascinated with the wonder of mechanics, perhaps because I come from a family on engineers. I am constantly taking things apart and fixing them, to see how they work.**

athletic: **I greatly enjoy individual sports where I can challenge myself daily and also participate with others. I feel that if you are passionate about a sport, you should not have to depend on others to thrive.**

musical, artistic, creative: **My main focus in life. I am a developing artist, my paintings have been shown in galleries. I feel like my musical tastes, both creating and listening are quite honed as I've been around music my entire life.**

language (what languages do you speak?): **I speak fluent Spanish, as I was raised in a Hispanic house hold where Spanish and English were spoke equally since I was born.**

What are your goals and ambitions in life?

I want to succeed as an artist and support my lifestyle by creating beautiful and interesting works of art. I also want to own a clothing company and manage a team of surfers and travel with them around the world to exotic surf locations.

Why do you want to be a sperm donor?

I want to help families that are not able to have children, make their dreams come true and be satisfied in life.

Did you choose to be an identity-release donor? **Yes**

3664 changed to Identity-Release in Dec 2007. He told a TSBC staff member that he had been considering switching all along. After much thought and discussions with people in his life, he decided that participating in the Identity-Release Program felt best for both the offspring and for himself.

What message would you like us to pass on to the people who are getting your sperm?

Congratulations, I hope that your life, and that of your child is fulfilling and rewarding. Life is beautiful.
