Neurological: **MGM: Migraines, 60, medication, managed. MGM: Stroke, 80, cause of death at 80.**

Respiratory: **F: Hay Fever, 15, OTC medication, managed. B: Asthma, 12, inhaler, resolved.**

Sight/Sound/Smell: **D: R 20/20 L: 20/15. PGF: Degenerative Retinal Disease, 85, none, losing vision.**

Urinary: **MGF: Kidney Cancer (exposure to nuclear fallout), 62, possible chemotherapy, cause of death at 62.**

Cancer: **MGF: Kidney Cancer**

Other: **D: ADD at 16, treated with medication, resolved.**

DONOR LAB RESULTS

Chlamydia: **Negative**

Gonorrhea: **Negative**

Syphilis: **Nonreactive**

HIV 1 & 2: **Negative**

CMV total antibody: **Reactive***

Hepatitis B: **Negative**

Hepatitis C: **Negative**

HTLV 1 & 2: **Negative**

Urinalysis: **Normal**

Chem panel: **Normal**

CBC: **Normal**

Cystic Fibrosis: **Negative**

Tay Sachs: **N/A** Sickle Cell Anemia/Thalassemia: **Negative**

***Other: CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non-infectious.**

DONOR NARRATIVE: Donor # 4387

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I feel that I am a socially inclined extrovert. I like to be around other people and have discussions with them on things of relevance, such as world events, politics, and societal norms and the like. I am goal oriented when there is something that I feel truly passionate about and put my high energy to use in achieving that goal, such as helping people or increasing my understanding of the world.

What are your interests and talents?

I am very interested in advancing my knowledge in my chosen field, emergency medical response, as well as making sure that I have time to indulge in my hobbies, which consist of: Making models, poetry, rock climbing, weight lifting, and cooking. I am a naturally talented singer, dancer and actor, acting being the only one I have formal training in.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I truly want to help people in this life. I believe we only get one shot and I hope that I can use mine to do a little good in the world. I am currently and EMT, Emergency Medical Technician, but I aspire to be a paramedic and a fire fighter. I eventually want to build up enough capitol to buy some land and have a self-sustaining farm to live on with my current girlfriend (soon to be wife) and our close friends, and grow all our own food/livestock, and still work to save lives.

How would you describe your skills and interests in the following areas?

Math:

I enjoy statistics and algebra very much, as well as physics. Overall I am very skilled in math, but only enjoy those subjects which are easily applied to the real world.

Mechanical:

I am not particularly skilled mechanically, but I can fix most basic car problems and enjoy doing so if I have the right tools.

Athletic:

I have a black belt in Tae Kwon Do, after 5 years of training, and I played football in high school. I love very physical, contact sports, and am very skilled at them.

Musical, Artistic, Creative:

I love music and art, and wish I had been trained to do either, but can naturally sing very well and sketch decently. I also write poetry for my person pleasure, but have competed and done well in the past.

Language (what languages besides English do you speak?):

N/A (donor wrote N/A)

What are some of your reasons for becoming a sperm donor?

My long term girlfriend is the result of artificial insemination, and I believe that the results are well worth supporting.

Did you choose to be an Identity-Release® Program donor? Yes No _____

Why did you make this choice?

The children have a right to know who their biological origins. I want them to have the right to make their own choices.

Is there anything else you would like to share with participating families and offspring?

I don't know you, and I don't know what you are like, but if you are here, it means you truly want a child, and I am both proud and honored to be a part of that even a very small one. I can't tell you what your child will be like, nor can you glean his or her future from my answers here, but I can tell you that I am excited to know that maybe this child will have a sense of wonder about the happiness are all I can wish you. 4387
