DONOR PROFILE: 4404

The past and current personal and family medical history, physical examination, and laboratory test results determine that donor **4404** is eligible and approved for semen donation at The Sperm Bank of California. This profile was prepared in **September, 2010.**

Donor cannot be shipped to New York

PERSONAL INFORMATION

Identity-Release® Program: **Yes**

Month/year of birth: **07/85**

Education: **BA Environmental Science Management and Policy, 2011 Pursuing MFA**

Current occupation: **Performance Artist, Acrobat**

PHYSICAL CHARACTERISTICS

Height: **5'10.5"**

Weight: **155 lbs**

Hair color: **Medium Blond**

Hair type: **Thick, Wavy-Curly**

Eye color: **Blue**

Complexion: **Rosy, tans well**

Body type: **Medium**

Ethnic origin: **Dutch, English, French**

Religion: **None**

Blood group/Rh: **O positive**

Baby photo available: **Yes**

FAMILY MEDICAL HISTORY KEY:

D donor	Ch child	F father	M mother	S sister	B brother
Co cousin	A aunt	U uncle	MGF maternal grandfather		
MGM maternal grandmother		PGF paternal grandfather		PGM paternal grandmother	

FAMILY MEDICAL HISTORY

Blood: **PGM: Stroke at 82, cause of death. PGF: Aneurysm at 74, cause of death**

Genital/Reproductive: **F: Prostate Cancer at 69, radiation, condition resolved**

Sight/Sound/Smell: **R:20/20 L: 20/20, D, S#1 and F: Dyslexia, diagnosed in childhood, treated with tutoring and classroom assistance, all managed effectively and all are/were successful students.**

Cancer (see above): **F: Prostate Cancer**

DONOR LAB RESULTS

Chlamydia: **Negative**

Gonorrhea: **Negative**

Syphilis: **Nonreactive**

HIV 1 & 2: **Negative**

CMV total antibody: **Reactive***

Hepatitis B: **Negative**

Hepatitis C: **Negative**

HTLV 1 & 2: **Negative**

Urinalysis: **Normal**

Chem panel: **Normal**

CBC: **Normal**

Cystic Fibrosis: **Negative**

Tay Sachs: **N/A** Sickle Cell Anemia/Thalassemia: **Negative**

***Other:** CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non-infectious.

DONOR NARRATIVE: Donor # 4404

How would someone describe you? (introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.)

I felt that it would only be fair for a friend to do this for me, so I asked a friend to give me a list of descriptive words about me and she said: creative, out-going, warm, inquisitive, intellectual, athletic, playful, determined, and compassionate.

What are your interests and talents?

When I was young I loved nature, animals and plants. I loved stars and space, and I love playing the piano. I had so many questions, my parents bought me an encyclopedia for kids.

Today people often describe me as a talented individual. When I play the piano people tell me to become a musician. When I photograph people say I have an eye for imagery and that I am an artist. When I dance people think I'm a professional. I believe all these things to be true, because I pour my heart into everything I do. I love to dance, to photograph, to cook and to make music. I love science, ecology and academics. I love people and community. However no matter how many interests I accumulate over my life, my greatest talents will remain in the creative arts.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I am torn between going back to school for a MFA in dance and photography or to study landscape design and green architecture. I want to continue to pursue art and dance as passions and of course would love to become a successful artist or at least commit a huge part of my life to the arts. I love teaching and could see myself as a teacher or combine my natural gift of creativity and design with my intellectual capacity to pursue landscape design with intension to promote ecology and sustainability. Happiness, and hard work in line with my morals is most important to my life as well as family and friends.

How would you describe your skills and interests in the following areas?

Math: I do not go out of my way for math, but it has always been one of my easiest subjects in school.

Mechanical: I love craft and some of them involve mechanisms, such as dark room photography. I often find myself tinkering around with things and figuring out how they work.

Athletic: I come from a family of athletes. I love yoga, swimming, biking, and acrobatics. I am pretty competitive within sports, however recently have merged athletics with arts in the form of dance and aerial acrobatics- which I am developing a huge passion for.

Musical, Artistic, Creative: My best subject. I have been receiving awards for my work since high school, and continued to receive prizes in college. Objectively I have the most potential within creative arts.

Language (what languages besides English do you speak?): Dutch, Spanish, a little French

What are some of your reasons for becoming a sperm donor?

At this point I am unsure if I will have children of my own, but I believe my genes are strong and healthy to pass on. I've read about this program and believe in people's rights to build happy families and I am happy to support this program. My family and I are all attractive, healthy, happy and intelligent individuals. What more could you ask for?

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I believe in an individual's right to know their history. I am also a very curious individual...

Is there anything else you would like to share with participating families and offspring?

My sisters and I were hard kids to raise, as we were rebellious and strong willed, but we were undeniable beautiful inside and out with hearts of gold and a deep compassion that is still with each one of us today. We are all very close. Be prepared for a very cute baby with a strong personality.
