### DONOR PROFILE: 2480

The past and current medical history, physical examination and laboratory tests determine that donor **2480** is acceptable for semen donation at The Sperm Bank of California. This profile was prepared in December of 2001.

### PERSONAL INFORMATION

Identity release: **yes**

Month/year of birth: **7/74**

Education: **BS in biology, current PhD student in biochemistry and molecular biology**

Current occupation: **doctoral student, graduate student researcher and instructor**

### PHYSICAL CHARACTERISTICS

Height: **6' 1"**

Weight: **195 pounds**

Hair color: **medium brown**

Hair type: **straight, fine**

Eye color: **dark brown**

Complexion: **fair rosy**

Body type: **large**

Ethnic origin: **English, Polish, German**

Religion: **born into Episcopal family**

Blood group/Rh: **A positive**

### FAMILY MEDICAL HISTORY KEY:

<b>D</b> donor	<b>Ch</b> child	<b>F</b> father	<b>M</b> mother	<b>S</b> sister	<b>B</b> brother
<b>Co</b> cousin	<b>A</b> aunt	<b>U</b> uncle	<b>MGF</b> maternal grandfather		
<b>MGM</b> maternal grandmother		<b>PGF</b> paternal grandfather		<b>PGM</b> paternal grandmother	

### FAMILY MEDICAL HISTORY

Acne: **M: acne as a child**

Cancer: **MGM: brain tumor cause of death at age 55; MGF: bladder cancer cause of death at age 62**

Eyesight: **D: slight astigmatism; F: minor color blindness**

Hair: **S: eyelashes fell out as a teenager and grew back two years later, perhaps alopecia areata (sudden hair loss) but never medically diagnosed**

Heart: **M, F: high cholesterol in late 40s, treated with modified diet; M: high blood pressure, treated with medication; PGM: heart attack in early 70s, currently in good health; PGF: high cholesterol**

Muscles/bones/joints: **F: two vertebrae fused since birth, does not impair activity, discovered while he was a college football player; PGF: arthritis**

Substance abuse: **MGF: alcoholism, consumption increased in his late 50s after his wife died**

Uro-genital disease: **PGM: hysterectomy**

### DONOR LAB RESULTS

Chlamydia: **Negative**

Gonorrhea: **Negative**

Syphilis: **Nonreactive**

CMV IGG: **Negative**

CMV IGM: **Negative**

HIV 1 & 2 antibody: **Negative**

Hepatitis B: **Negative**

Hepatitis C: **Negative**

HTLV 1 & 2: **Negative**

Urinalysis: **Normal**

Chem panel: **Normal**

CBC: **Normal**

Semen culture: **Normal**

Cystic Fibrosis: **Negative**

Tay Sachs: **N/A**

Sickle cell anemia/thalassemia: **Negative**

**DONOR NARRATIVE: Donor 2480**

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

**I am generally somewhat of an introvert when I'm around a lot of people I do not know. However, in smaller groups I become quite extroverted. I have a good sense of humor, or at least I like to think so. I am generally a rather curious person and I can become quite focused if something catches my fancy (probably why I am in grad school for biochemistry).**

What are your special interests and talents?

**I really enjoy travelling and having new experiences through travel, both on vacations and living in different areas of the country (and other countries). I have broad interests and enjoy a variety of ways to spend my time.**

How would you describe your enjoyment of and skills in the following areas:

math: **Math was always my best subject while in school and I really enjoy it.**

mechanical: **I have good hands and mechanical thinking but no formal training.**

athletic: **I am generally good at athletics. I lettered in soccer, basketball and baseball in high school. I am still active in these as well as other sports.**

musical, artistic, creative: **I played piano for about eight years as a child and took art lessons as well (drawing mostly). I was quite good at both but I haven't played or drawn much in later years. I also enjoy singing.**

language (what languages do you speak?): **I speak a little Spanish.**

What are your goals and ambitions in life?

**My main goal in life is to find something to do that I enjoy and to be happy. As to what, exactly, that will be, I am unsure at the moment.**

Why do you want to be a sperm donor?

**Mainly an income supplement – I'm just a poor grad student.**

Did you choose to be an identity-release donor?  yes  no. Why did you make this choice?

**I tried to put myself in the shoes of someone who was the result of such a donation. I might not actually look up the donor, but it would be reassuring to have the option to do so.**

What message would you like us to pass on to the people who are getting your sperm?

**Best of luck – I'm glad I can help out you and your family.**
