Full Jewish Panel: **NA**

DONOR NARRATIVE: Donor # 4630

(The content of this narrative has not been altered by TSBC staff and there for reflects original written work of the Donor)

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I am outgoing and socially active. However at the same time I enjoy spending time by myself and can be introspective as well. I may come off as serious, but I have a sarcastic and witty sense of humor and can be very funny as well.

What are your interests and talents?

I love being active and outside, I spend much of my time hiking, cycling and playing sports. I'm particular I play ultimate Frisbee at a competitive level. I have always loved reading and movies, and academically I have always been interested in History and Politics and I keep myself well versed in current events and foreign policy.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I am and have pursued a career in International Development. I am planning to attend graduate school in the next few years for a Masters degree. I then see myself taking a position in Africa with a development organization in particular I would love to find myself in Cape Town South Africa working for specific organizations that I know.

How would you describe your skills and interests in the following areas?

Math: Math has never been my strong suit, but I was never bad at it. I always did well in math courses through high school, but I did not pursue it in college.

Mechanical: I would say that I have medium mechanical skill. I have worked stage production and carpentry jobs, but I am not as skilled as many people I worked with.

Athletic: I am very athletic and have always loved sports. Growing up I played soccer and Baseball, but now primarily play ultimate Frisbee.

Musical, Artistic, Creative: While I love music and art I have never personally been very talented in this area.

Language (what languages besides English do you speak?): Basic Lugunda (language of central Uganda) Intermediate Spanish (have not practiced for years)

Writing: I love writing whether it is essays or academic papers or blogs or journal entries, I believe I am a strong writer.

Literature: I love books and literature, readings is a favorite pastime of mine.

Science: While I chose not to focus on sciences in school I have always loved biology and botany. I especially love marine biology.

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: *Star War*

Book: *Lord of the Rings*, J.R.R Tolkien

Album: *Dusty Foot Philosopher* or *Troubadour* by K'naan

What are some of your reasons for becoming a sperm donor?

Honestly the financial incentives played a big part in the decision, but also I realized that it is a very decent thing to do and can bring a lot of joy to a family. From spending time with my nieces I know the joy that children bring to an extra family.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I felt that it is the responsible thing to do in participating in this program as a donor. I believe that if I were a child in this situation I would like the option to find out who my generic father is, and I believe that this is the best situation for all parties.

Would you like more information on our Identity-Release® Program? Yes No

Is there anything else you would like to share with participating families and offspring?

I come from a very health, attractive, and intelligent family and I think you will be happy with the results. Good Luck.
