- Identity-Release[®] Program: **No**
- Month/year of birth: **June 1987**
- Education: **BA in Biology, Post-graduate degree in Nursing**
- Current occupation: **Student**
- Ethnic origin: **Korean, German, Irish, Scottish**
- Religion: **Roman Catholic**

PHYSICAL CHARACTERISTICS

- Height: **6'0"**
- Weight: **183**
- Hair color: **Dark brown**
- Hair type: **Straight**
- Eye color: **Light brown**
- Complexion: **Light brown**
- Body type: **Medium**
- Blood group/Rh: **A+**
- Baby photo available: **Yes**
- Other distinguishing features: **Cheek dimples when smiling**

FAMILY MEDICAL HISTORY

KEY: D donor Ch child F father M mother S sister B brother
Co cousin A aunt U uncle MGF maternal grandfather MGM maternal grandmother
PGF paternal grandfather PGM paternal grandmother

Allergies: **D: Grass and cat dander at 18, treated with avoidance, managed. S: Allergy to penicillin at 2, treated with avoidance, managed. M: Allergy to pet dander at 32, treated with allergy shots, managed.**

Breast Cancer: **MGM: Breast cancer at 69, treated with mastectomy and chemotherapy, resolved.**

Heart: **MGF: High blood pressure at 62, treated with medication, ongoing. MGF: High cholesterol at 62, treated with diet change, managed. MGF: Heart attack at 71, treated with surgery and diet change, recovered. PGM: High cholesterol at 68, treated with diet change, managed.**

Muscles/Bones/Joints: **PA: Neck pain at 39, treated with surgery, managed.**

Neurological: **PCo: Asperger syndrome at 5, treated with support and therapy, ongoing.**

Respiratory (Lungs): **D: Asthma at 13, treated with inhaler as needed, resolved within 1 year.**

Sight/Sound/Smell: **D: R eye 20/20, L eye 20/20. F: Cataracts at 53, treated with surgery, resolved.**

Skin: **MCo: Severe acne at 15, treated with prescription cream medication, some scarring.**

Substance Abuse: **F: Alcoholism at 33, treated with rehabilitation program, sober for the past 16 years.**
Cancer (see above): **MGM: Breast cancer at 69, treated with mastectomy and chemotherapy, resolved.**
Other: **F: Pinched nerve in back at 49, treated with surgery, resolved.**

DONOR LAB RESULTS

Chlamydia: Not Detected	Gonorrhea: Not Detected	Syphilis: Non-Reactive
HIV 1 & 2: Non-Reactive	CMV total antibody: *Positive	
Hepatitis B: Non-Reactive	Hepatitis C: Non-Reactive	HTLV 1 & 2: Non-Reactive
Urinalysis: Normal	Chem panel: Normal	CBC: Normal

**CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non-infectious*

GENETIC SCREENING RESULTS: ALL TEST VALUES IN NORMAL RANGE

Genetic screening tests can significantly reduce, but never completely eliminate, the chance that a person is a carrier for a particular disorder.

Cystic Fibrosis: (> 500 mutations)	No mutation detected
Spinal Muscular Atrophy (SMA):	Two copies of SMN1 detected
Hemoglobinopathies/Thalassemia:	No abnormal hemoglobin detected (including sickle hemoglobin); No evidence of thalassemia

DONOR NARRATIVE: 4787

The content of this narrative has not been altered by TSBC staff and therefore reflects original written work of the Donor

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

Growing up as a kid I was always shy around new people, but once we became friends my shield came down and all I would try and do was make them laugh. In high school, I was a very hard worker, goal-oriented and nervous about what my future had in store for me. College is when I started to settle down and become comfortable with who I am. I'm not very talkative, I keep to myself most of the time, I love to listen, and enjoy the company of family and close friends. I'm extremely persistent and I hate leaving tasks unfinished.

What are your interests and talents?

I've always been interested in sports growing up, either playing them or watching them. I loved being outside as a kid whether it was hiking, camping, swimming at the beach, or running around the cul-de-sac with friends. Currently my interests are geared towards the medical field as I am pursuing a degree in nursing at the moment.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

Goals and ambitions in life are to finish my post-bac in nursing. Apply for medical school and grad school. If medical school works out that's great, I would pursue that route and study anesthesiology. If not, I will pursue a master's of science in nursing and become a CRNA. In 5 years I will either be in medical school or finishing my master's in nursing.

How would you describe your skills and interests in the following areas?

Math: Math came to me easy all through my life. I've always received high marks in math from algebra to multiple variable vector calculus.

Mechanical: Growing up I was never very interested in taking things apart, but as an adult I love fixing my car and my motorcycle when there is a problem.

Athletic: Played sports all throughout my life from basketball, soccer, ice hockey as a kid. In high school I played for years of football and won a national championship.

Musical, Artistic, Creative: Growing up I played the piano, guitar, and violin. However today the only instrument I occasionally play is the classical guitar.

Language (what languages besides English do you speak?): I only speak English, I took 6 years of Spanish, and currently I am learning American Sign Language.

Writing: I do not enjoy writing. I've never received lower than a B+ in school for English but if I can avoid writing a paper, I jump at that opportunity.

Literature: I enjoy reading science fiction novels and my textbooks.

Science: Love science, everything from physics to biology. I find it extremely fascinating how the world works.

On a deserted island and could only have one book, one movie and one album...

Movie: *The Dark Knight*

Book: The Wise Man's Fears, Patrick Rothfuss

Album: *Help!* The Beatles

What are some of your reasons for becoming a sperm donor?

I chose to become a sperm donor because it seemed like a great opportunity to help couples start a family. Having a family just makes life more enjoyable.

Did you choose to be an Identity-Release® Program donor?

Yes

No

Why did you make this choice?

I was informed that once I committed to the Identity-Release Program I cannot remove myself from it at any time. So I would like more time to think about it.

Is there anything else you would like to share with participating families and offspring?

If you choose me as your sperm donor or not, I wish you the best of luck on your adventure of starting a family, and I hope everything works out.
