DONOR PROFILE: 4379

The past and current personal and family medical history, physical examination, and laboratory test results determine that donor **4379** is eligible and approved for semen donation at The Sperm Bank of California. This profile was prepared in **September, 2010**.

PERSONAL INFORMATION

Identity-Release[®] Program: **No**

Month/year of birth: **04/85**

Education: **College Degree in Mechanical Engineering**

Current occupation: **Math Tutor/ Teacher**

PHYSICAL CHARACTERISTICS

Height: **5' 10"**

Weight: **206**

Hair color: **Medium Brown**

Hair type: **Wavy**

Eye color: **Dark Brown**

Complexion: **Fair/ Rosy**

Body type: **Medium**

Ethnic origin: **Italian**

Religion: **Christianity**

Blood group/Rh: **O positive**

Baby photo available: **No**

Other defining features: **Donor thinks he resembles Keanu Reeves**

FAMILY MEDICAL HISTORY KEY:

D donor	Ch child	F father	M mother	S sister	B brother
Co cousin	A aunt	U uncle	MGF maternal grandfather		
MGM maternal grandmother		PGF paternal grandfather		PGM paternal grandmother	

FAMILY MEDICAL HISTORY

Allergies: **D: Lactose Intolerant, onset in infancy, avoidance and lactaid medication, condition remains.**

Blood: **MGM: Anemia, onset at 70, iron supplements and diet changes, resolved.**

Congenital Anomalies/Birth Defects: **Ch (donor offspring) born with extra thumb, surgery, resolved.**

Gastro-intestinal: **MU#3: Hepatitis C, onset at 50, no treatment, developed liver cancer; Liver Cancer, no treatment, cause of death at 59.**

Heart: **MGM: High Blood Pressure, onset at 60, diet changes, managed.**

Respiratory: **D, M, B, MGM, MU#1, MU#2: Hayfever, all family members onset in childhood, OTC meds, condition managed. MGM, MU#1: Asthma, onset in childhood, outgrew, condition resolved.**

PGM: Emphysema (smoker), onset at 60, no treatment, contributed to death by pneumonia at 70.

Sight/Sound/Smell: **Donor eyesight: R: 20/30 L:20/30,**

Skin: **B: Acne, onset at 15, medication, reduced outbreaks. MU#1: Acne, onset in teens, outgrew it, some scarring.**

Cancer (see above): **MU#3: Liver Cancer**

DONOR LAB RESULTS

Chlamydia: **Negative**

Gonorrhea: **Negative**

Syphilis: **Nonreactive**

HIV 1 & 2: **Negative**

CMV total antibody: **Reactive***

Hepatitis B: **Negative**

Hepatitis C: **Negative**

HTLV 1 & 2: **Negative**

Urinalysis: **Normal**

Chem panel: **Normal**

CBC: **Normal**

Cystic Fibrosis: **Negative**

Tay Sachs: **N/A**

Sickle Cell Anemia/Thalassemia: **Negative**

***Other:** CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non- infectious.

DONOR NARRATIVE: Donor # 4379

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I have been described as very intelligent and goal-oriented. My friends would describe me as funny, witty and comical. I have been told I'm the life of the party on multiple occasions, and I love pulling pranks and practical jokes. I have been told I'm very patient and good at explaining things.

What are your interests and talents?

I am very interested in mechanical design and the automotive field. This is why I hope to get into automotive design or robotics. I love to draw and to work on my cars. I have taken almost every math class, chemistry class, and physics class and passed them all with A's. My most enjoyable profession thus far would be teaching and tutoring math. I truly enjoy helping others and the satisfaction it brings when they succeed in understanding concepts they had great difficulty grasping. For this reason, I am considering being a part-time math teacher later in life (night classes at a college most likely).

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I desire to find employment in the field I am most passionate about, mechanical engineering. My preferred focus would either be automotive design or robotics. I am not seeking great wealth, otherwise I would have chosen a different major, but would like financial stability to always be able to provide for my son and insure he never has to struggle for any of the necessities in life. I also want to help my parents in every way possible as they grow older.

How would you describe your skills and interests in the following areas?

Math: I have always enjoyed and been good at math. I taught and tutored math to people with difficulties understanding it and with learning disabilities at my junior college. I came in third place in a national math contest.

Mechanical: I am a mechanical engineering major. I came in at the top of my class in advanced mechanical design. I have been able to assist friends/ classmates with ingenuitive problem solving strategies in their designs. I have restored, modified, and upgraded multiple sports cars.

Athletic: I enjoy BMXing in my free time on both dirt and at skate parks. I also enjoy mountain biking on occasion. I train regularly in a variety of mixed martial arts. I do intensive cardio at the gym on weeknights and do weight-lifting three times a week.

Musical, Artistic, Creative: I have always been good at drawing since I was a child. My skills have only grown as the years progressed. I can draw any inanimate object you place in front of me, including shading for added realism. I am also very skilled in drafting and mechanical schematics.

Language (what languages besides English do you speak?): **None**

What are some of your reasons for becoming a sperm donor?

I would like to help others attain the families they desire. My son brings me great joy and pride, and I know there are other loving and caring individuals who would be overly grateful to have such a wonderful son or daughter.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I am still considering the Identity-Release® Program but I am not 100% sure about it.

Is there anything else you would like to share with participating families and offspring?

My 19 month old son is the most wonderful addition to my life. I love him more than anyone could imagine. He is beautiful and brilliant. When he was born, the nurses were amazed at how beautiful he was and were even more amazed that he wasn't a girl due to his astonishing good looks. He is very observant and learns things very easily. I receive complements regularly on what a cute and well behaved child he is. He almost never cries and he is very generous with his food and toys. He is very good with shapes and challenging toys (he may be mechanically inclined, like his father). He learned to walk quite early, now he runs and is saying all sorts of words. I am extremely proud of him.
