Sight/Sound/Smell: **R:20/25 L:20/20. MGF: Color Blind**
Skin: **D: acne, 16, medication, resolved by age 20. F: Acne at age 16, no treatment, resolved. F: Eczema in childhood, no treatment, managed. PU#2, MU#1 & MU#5: Skin Cancer, 60's, surgery, resolved.**
Cancer (see above): **MGM: Colon cancer MGF: Prostate Cancer. PU#2, MU#1 & MU# 5: Skin Cancer**
Other: **PGM: Benign Tumor (Breast) in 40's, treated with partial mastectomy, resolved.**

DONOR LAB RESULTS

Chlamydia: **Negative** Gonorrhea: **Negative** Syphilis: **Nonreactive**
HIV 1 & 2: **Negative** CMV total antibody: **Nonreactive**
Hepatitis B: **Negative** Hepatitis C: **Negative** HTLV 1 & 2: **Negative**
Urinalysis: **Normal** Chem panel: **Normal** CBC: **Normal**
Cystic Fibrosis: **Negative** Tay Sachs: **Negative** Sickle Cell Anemia/Thalassemia: **Negative**

DONOR NARRATIVE: Donor # 4554

(The content of this narrative has not been altered by TSBC staff and there for reflects original written work of the Donor)

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I'm kind, funny, and sensitive. I'm neither introvert or extro-. I like alone time, but I get a charge from interacting with my students and friends (of course). I'm pragmatic. I love problem solving. When I establish a goal, I'm rarely stopped. I'm curious, particularly toward history and geography. I like exploring. I can be stubborn, but I'm very open-minded.

What are your interests and talents?

Cooking, baking playing guitar, bikes camping, reading... Maps. I'm good with words, language, and numbers.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

I'd like to be teaching. I'd like to be a dad. I want to be studying Spanish, and be out of debt. If I'm not teaching, I'd like to be grant writing or doing public health research.

How would you describe your skills and interests in the following areas?

Math: I'm good with numbers and have a head for figures. I do stats professionally and teach.

Mechanical: I have great spatial awareness. I love fixing things and assembling them, I love projects.

Athletic: Played some soccer in college. I love running and biking. I go on bike camping tours. If it snowed here I'd X-country ski.

Musical, Artistic, Creative: Love guitar. Taught myself. Took piano lessons as a child, didn't like it. I love pottery and ceramics.

Language (what languages besides English do you speak?): I speak French and Russian. I really want to learn Spanish. I love word games and puzzles, language and etymology.

Writing: I write well, I've published a book chapter and given many talks. I prefer public speaking.

Literature: I read mostly non-fiction, but I also have a guilty pleasure for sci-fi. I've left the love of contemporary fiction to my Mom and Brother. I read way to much Russian Lit.

Science: I'm a social scientist. I study people, places, and social dynamics. Hard science is fascinating, but I never felt a great affinity for it.

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: *Family Home movies of loved ones.*

Book: *The biggest, most thorough cook book possible.*

Album: *A mix tape made by my brother.*

What are some of your reasons for becoming a sperm donor?

1. **It's amazing to be able to help people this way.**
2. **Money**

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I'm a curious person. I'd always be wondering. Maybe the donee's child would be curious too. Maybe the kid would have some questions and I could answer.

Is there anything else you would like to share with participating families and offspring?

The most important thing in the world for my whole life has been my family. They're wonderful, kind, funny and caring people who made my memories of childhood and family and more precious than anything. I wish you the same.
