DONOR LAB RESULTS

Chlamydia: Negative	Gonorrhea: Negative	Syphilis: Nonreactive
HIV 1 & 2: Negative	CMV total antibody: Reactive*	
Hepatitis B: Negative	Hepatitis C: Negative	HTLV 1 & 2: Negative
Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle Cell Anemia/Thalassemia: Negative
Full Jewish Panel: NA		

***Other:** CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non-infectious.

DONOR NARRATIVE: Donor # 4645

(The content of this narrative has not been altered by TSBC staff and there for reflects original written work of the Donor)

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I was raised without television growing up and I think that played a role in my developing personality in a positive way. I am a happy easygoing guy with a sense of humor, especially when I am around close friends. I tend to be a little bit shy at first but once I warm up to someone that all changes quickly. I have been told I am a natural leader, which is interesting because I tend to be more introverted. It may be because I am confident and passionate about what I do and people see that and respect that about me. It's all speculation on my part. I am respectful and honest and I believe in the golden rule: Treat others as you would like to be treated yourself.

What are your interests and talents?

I have always had a natural talent for art. I am a very serious drummer and I play in many bands with varying styles. Eventually I will make a career out of this. I am a professional sound engineer and continually record and produce all kinds of music. My hobbies include painting, backpacking, catching lizards and frogs, and I love cats.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

Playing and recording music is what I enjoy doing more than anything in life. To be able to call myself a professional musician is my ultimate ambition. It takes a great deal of time and dedication to become a professional musician and I am well on the way. I am continually in the recording studio, playing music or practicing my instrument every day to help achieve this goal.

How would you describe your skills and interests in the following areas?

Math: I understand some complex math when it comes to music, like polyrhythm's in drumming but I am average at regular math, although I have much respect for it. As I am getting older I am enjoying it more.

Mechanical: I am practical. I can change my own oil in my car. I am very good at trouble shooting musical equipment.

Athletic: I played soccer as a child. I am a fit person but I am just aberage at physical sports I do have cousins who are really good.

Musical, Artistic, Creative: I have been playing music all my life. I am very artistic and creative.

Language (what languages besides English do you speak?): I only speak English.

Writing: I feel I am a better writer than I am a speaker, because I can organize my thoughts better. It's a skill I appreciate but it's not a passion.

Literature: Books and my imagination replaced television growing up. I really enjoy reading and I continue to this day.

Science: I have always loved science, especially biology. I really enjoyed this subject in school and if it were not for music, I would probably be some sort of biologist studying amphibians in the rainforest for a living.

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: **Too much to choose**

Book: *Donor did not answer*

Album: *Donor did not answer*

What are some of your reasons for becoming a sperm donor? **The majority of my family lived long healthy lives. I even knew three of my great grandparents. I believe my family has very good genes. My relatives are all handsome and healthy. I would like to pass all this down to you.**

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice? **I think that as I get older I will have a better idea about this. I am just not quite ready yet.**

Would you like more information on our Identity-Release® Program? Yes No

Is there anything else you would like to share with participating families and offspring?
