Cystic Fibrosis: **Negative** Tay Sachs: **N/A** Sickle cell anemia/thalassemia: **Negative**
Other: **CMV urine culture negative, donor is presumed non-infectious**

DONOR NARRATIVE: Donor 2906

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am a funny, curious, hard-working, and very goal oriented person. I strive for peace in society and try to help others before I help myself.

What are your special interests and talents?

I enjoy building anything and am getting quite proficient at it. For example, my Dad and I remodeled the kitchen in our house and I was the head engineer. I enjoy outdoors, I like running, swimming, biking, hiking, as well as reading books on any topic and programming computers.

I have an IQ of 166 and am strongly considering joining MENSA, which I have not done yet due to the lack of spare time I currently have.

How would you describe your enjoyment of and skills in the following areas:

math: **I enjoy math very much and am good at it.**

mechanical: **Being a mechanical engineer, I can figure out how and why things work the way they do before others.**

athletic: **I have recently taken up Judo (martial art) as well as working out every day.**

musical, artistic, creative: **I enjoy listening to classical music and jazz. I am very music-oriented.**

language (what languages do you speak?): **I speak English (duh), French, Russian, Ukrainian. I can read, write and speak all four.**

What are your goals and ambitions in life?

I would like to get into the professional car racing world, which I currently participate in on a smaller scale (BMW Club). I would like to own an Indy 500 team someday and maybe even race myself in the professional world.

Why do you want to be a sperm donor?

As stated before I like to help others before helping myself. I feel like I am helping the unfortunate ones who cannot do it themselves. I believe that it is not natural for a couple of any sort to live without a kid, therefore I believe that it is my obligation to help everyone enjoy their life in full.

Did you choose to be an identity-releasesm donor? ___yes no. Why did you make this choice?

Personal reasons I would rather not discuss.

What message would you like us to pass on to the people who are getting your sperm?

I wish you the best of everything. Have a great life and an addition to it.
