Urinalysis: Normal	Chem panel: Normal	CBC: Normal
Cystic Fibrosis: Negative	Tay Sachs: N/A	Sickle cell anemia/thalassemia: Negative

DONOR NARRATIVE: Donor 3798

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am very out-going, I love speaking in front of crowds. I'm very friendly and my friends say I'm funny. I am very easy-going, but when I need to be I can put my mind to something and get it done. Although I'm not goal-oriented unless it is something that really interests me, or something that I need to do.

What are your special interests and talents?

I love the water, and everything that has to do with it. I've done practically every sport that involves water and I am an avid swimmer, waterpolo player, SCUBA diver, and free diver. I love teaching swim lessons and passing my skills onto younger people. I also enjoy musical theater and I've been the lead role in three plays. I'm also very good with directions, and have accurate photographic memory.

How would you describe your enjoyment of and skills in the following areas:

math: **I've never been good at math, but I've always liked taking the classes because I found them challenging and interesting.**

mechanical: **I've always liked and have been quite good at fixing things and working with my hands.**

athletic: **I've always been very athletic, throughout my life I was always participating in at least one sport.**

musical, artistic, creative: **I am a decent singer, I played the clarinet for three years but dropped it. I am the worst drawer/painter in the world, and I am very creative when I put my head to it.**

language (what languages do you speak?): **I took 4 years of Spanish in high school and was almost fluent, but it has since worn off a little.**

What are your goals and ambitions in life?

I would like to finish my college education, find a job that I love, and start a family.

Why do you want to be a sperm donor?

I believe that everyone should have the opportunity to have a child and experience life at its beginning, and this was a way I could help.

Did you choose to be an identity-release donor? yes Why did you make this choice?

I made this choice because I thought the offspring should have the right to know who I am if he or she wanted to.

What message would you like us to pass on to the people who are getting your sperm?

I would like to give them my blessing and wish them the best of luck as parents, and hope that they would always love and support their child through out their whole life.
