Religion: **Born into Christian Scientist. Currently, does not practice.**
Blood group/Rh: **A positive**
Baby photo available: **No**

FAMILY MEDICAL HISTORY KEY:

D donor **Ch** child **F** father **M** mother **S** sister **B** brother
Co cousin **A** aunt **U** uncle **MGF** maternal grandfather
MGM maternal grandmother **PGF** paternal grandfather **PGM** paternal grandmother

FAMILY MEDICAL HISTORY

Allergies: **D- mild allergy to amoxicillin**
Cancer: **PGF- diagnosed with lung cancer at 40, cause of death at 70, was lifelong smoker**
Respiratory: **D- Minor asthma diagnosed at 7, triggered by colds and exercise, treated with inhaler when needed, F-Minor asthma diagnosed at age 14, did not require treatment, resolved itself by age 18, PGF- diagnosed with lung cancer at 40, cause of death at 70, was lifelong smoker**
Sight/Sound/Smell: **D- vision is 20/25, 23/30, does not wear corrective eyewear, M- Minor dyslexia diagnosed at age 5, no treatment necessary, PGM- Started going blind at 70, wears glasses but condition is degenerative due to old age**
Skin: **D- Onset of acne at age 14, outgrew by age 18, no scarring, F- Onset of acne at 14, outgrew by age 20, no scarring**
Other: **Donor's younger brother was stillborn, reason was not determined, MGF- born with cleft palate, caused by mother having scarlet fever when born, all other siblings were born healthy.**

DONOR LAB RESULTS

Chlamydia: **Negative** Gonorrhea: **Negative** Syphilis: **Nonreactive**
HIV 1 & 2: **Negative** CMV total antibody: **Reactive**
Hepatitis B: **Negative** Hepatitis C: **Negative** HTLV 1 & 2: **Negative**
Urinalysis: **Normal** Chem panel: **Normal** CBC: **Normal**
Cystic Fibrosis: **Negative** Tay Sachs: **N/A** Sickle cell anemia/thalassemia: **Negative**
Other: **CMV urine culture negative, donor is presumed non-infectious**

DONOR NARRATIVE: Donor 3941

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I am an extrovert with a friendly sense of humor. I scored in the top 5% for spatial visual testing by a pediatric neurologist. Naturally fit and very flexible, I can, without effort, learn and perform physical acts of coordination. I can sing and have a natural sense of rhythm.

What are your special interests and talents?

I have a delicate ear for music and harmony. I can pick songs apart in my head and reproduce the melody. I can almost do the splits after a few months of weekly stretching. I can skateboard, snowboard, BMX (bicycle), ride a motorcycle, a dirt bike, and rollerblade. (And ice skate). I have very little instruction, but I can sing 3 octaves. Naturally artistic; I can paint and draw, I have a knack for color and shadows.

How would you describe your enjoyment of and skills in the following areas:

math: **Very much enjoy it. Completed calculus in 2005.**

mechanical: **Very much enjoy it. Mechanical systems are easy for me to analyze and visualize.**

athletic: **I like soccer, baseball, tennis, and dodge ball. I am good at learning these sports, but have not/do not spend much time playing them.**

musical, artistic, creative: **All three come naturally, but I'm no prodigy in the visual arts department. Potential to be great musician, based on family genes and upbringing.**

language (what languages do you speak?): **Un poco Espanol**

What are your goals and ambitions in life?

Finish school. Go back to New Zealand for awhile, explore Europe, get a job I enjoy; likely Architectural Drafting, marry someone from a country that I want to move to, raise a multi-cultural family, retire in a beautiful place.

Why do you want to be a sperm donor?

I saw this as an opportunity to learn more about myself and make school money in the process. The money will allow me to work less and help the community more.

Did you choose to be an identity-release donor? yes no. Why did you make this choice?

Uncomfortable telling future wife at the moment.

What message would you like us to pass on to the people who are getting your sperm?

Your child's talents will likely be spatial understanding and physical coordination. Don't stress if your kid seems to have trouble focusing in school, he's still learning, just interested in other things. Please teach them how to sing too; everyone in my family is a musician (myself included). You'll find that your child can pick up tones quickly.
