**Donor # 4014  
Interview Notes**

The first word that comes to mind when I think of donor 4014 is tow head. Donor has bright green-hazel eyes, platinum blonde hair and beautiful fair skin. When I asked him if all of his family had platinum blonde hair he explained that, in fact, the majority of his family members look nothing alike. His maternal grandmother measured in at the slight height of 5'0", yet his father towered at 6'2". Another noteworthy difference is the ability for different family members to tan. Donor 4014 tends to burn easily, while both his brother and father tan with little effort. The donor provides addition information about the physical characteristic's for some of his family members. After meeting him, however I would say that his description of their physical characteristics is a more accurate insight into the donor's personality. For example, his explanation of his younger brother has the tone of a tender, but taunting older brother, the description of his mother is very loving and the description of himself is very modest.

Donor was a delightful and chuckle-inducing interviewee. He had a very humble demeanor, accompanied with dry wit and sincerity. He struck me as the life of the party, being able to provide comic relief when necessary and having the knack for being light-hearted. He is a very good communicator and very inquisitive. He has a level of intelligence that is reassuring and an ability to carry the conversation, not just respond to directed questions.

Donor 4014 expressed an interest in cooking. He explained that he really enjoys trying new foods. When I asked him what his specialties were he proudly answered, "Pasta with red sauce, stir-fries and meat." He then followed that comment by saying that although he loves to cook he feels he is a more accomplished baker. Donor 4014 explained, "Baking is more of a science. You simply follow the directions. Plus, it's all sugar and butter so you really can't go wrong."

In all honesty, I was surprised to discover that he was 18 years old. The donor is very mature and has been described by other staff members as, "a wonderful guy with an old soul." Overall, it was an absolute pleasure meeting donor 4014. He is an attractive guy and a thoughtful identity-release donor.
