**DONOR NARRATIVE: Donor # 4264**

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

**My friends and family would describe me as someone with a good sense of humor, and someone who is socially engaging. I have been known to enjoy conversation about history, current events and politics as well as social issues. I am a playful father and enjoy telling stories to my children. While I enjoy the company of family and friends, I rejuvenate by having time to myself. In a professional context, I have been valued for my ability to build relationships and connect with people from different backgrounds.**

What are your special interests and talents?

**I have been known for my athleticism since I was a child, as a teenager I earned a black belt in Taekwondo, competing on a state and national level as well as serving as an instructor. I also ran track and field and danced semi-professionally during college (jazz/modern dance). As an adult I continue to practice dance and martial arts in my free time.**

**My interests in social issues stem from my commitment to making the world a better place through social service, which I have put into practice as a volunteer and employee.**

How would you describe your enjoyment of and skills in the following areas:

math: **Proficient, however this is an area that I had to work hard on in college.**

mechanical: **Strong in this area; I have always learned quickly how machines and technology operate.**

athletic: **I have been told that I am gifted and very athletic. I have enjoyed dance, track & field, and martial arts.**

musical, artistic, creative: **Have danced professionally for a small dance company.**

language (what languages besides English do you speak?): **None.**

What are your goals and ambitions in life?

**In my family, my goal is to be a strong role model and father to my children, a supportive husband to my wife and a resource to my parents as they age.**

**Professionally, I would like to continue to contribute to society and make my community a better place through public and/or community service.**

Why do you want to be a sperm donor?

**We have known a variety of individuals and couples that have needed a sperm donor in order to have children. We have heard that there were not enough men of color donors and I decided that I would like to contribute. Based on my wife's ability to easily conceive three children I felt confident that I would be a successful donor.**

Did you choose to be an Identity-Release® Program donor? \_\_\_Yes XNo. Why did you make this choice?

**For the implications on my current family (children).**

What message would you like us to pass on to the people who are getting your sperm?

**I hope that my donation helps you to have the family you are hoping for. In my own family we have been blessed with healthy, joyful, smart and caring children, and I wish the same for you.**

**While I want to remain anonymous, I would want you to feel assured knowing that I come from a large family where we have all had excellent health and led happy and productive lives.**
