DONOR PROFILE: 4276

The past and current personal and family medical history, physical examination, and laboratory test results determine that donor **4276** is eligible and approved for semen donation at The Sperm Bank of California. This profile was prepared in **December, 2009**.

PERSONAL INFORMATION

Identity-Release[®] Program: **No**

Month/year of birth: **12/1989**

Education: **Pursuing a Bachelors Degree in Environmental Studies**

Current occupation: **Student**

PHYSICAL CHARACTERISTICS

Height: **6'0"**

Weight: **148**

Hair color: **Dark Brown**

Hair type: **Thick and Wavy**

Eye color: **Green Hazel**

Complexion: **Fair/ Creamy**

Body type: **Medium**

Ethnic origin: **German, Czech, Scottish, Swedish, Belgian, French**

Religion: **Born Agnostic, Practicing Prasangika Buddhism/ Existentialism**

Blood group/Rh: **B+**

Baby photo available: **Yes**

Other defining features: **Thick eyebrows. Resembles Daniel Radcliffe (who plays Harry Potter) especially in profile.**

FAMILY MEDICAL HISTORY KEY:

D donor **Ch** child **F** father **M** mother **S** sister **B** brother
Co cousin **A** aunt **U** uncle **MGF** maternal grandfather
MGM maternal grandmother **PGF** paternal grandfather **PGM** paternal grandmother

FAMILY MEDICAL HISTORY

Genital/Reproductive: **M: Uterine Fibroids, onset at 36, hysterectomy, condition resolved.**

Heart: **F: High Blood Pressure, onset at 52, diet and exercise changes, managed. PGF: Heart Attack (due to obesity), cause of death at 44. PGM: Heart Attack, 69, hospitalization, ongoing, managed.**

Metabolic/Endocrine: **PGM: Diabetes, onset at 57, dietary changes, insulin dependent.**

Neurological: **PGM: Peripheral Neuropathy, onset at 59, home assistance, difficulty walking.**

Skin: **D: currently has visible acne. Treatment unknown**

Sight/Sound/Smell: **D:100/20 100/20. MGF: Macular Degeneration, onset at 76, photocoagulation, legally blind.**

Other: **D: Hernia, onset at 3, surgery, condition resolved.**

DONOR LAB RESULTS

Chlamydia: **Negative**

HIV 1 & 2: **Negative**

Hepatitis B: **Negative**

Urinalysis: **Normal**

Cystic Fibrosis: **Negative**

Gonorrhea: **Negative**

CMV total antibody: **Nonreactive**

Hepatitis C: **Negative**

Chem panel: **Normal**

Tay Sachs: **N/A**

Syphilis: **Nonreactive**

HTLV 1 & 2: **Negative**

CBC: **Normal**

Sickle cell anemia/thalassemia: **Negative**

DONOR NARRATIVE: Donor # 4276

Describe your personality (introvert, extrovert, funny, serious, goal-oriented, curious, etc.).

I have been described as intelligent, inquisitive, driven and creative. I tend to set goals and pursue them with passion. I am athletic- I ran cross country and track and field in high school, where I also played water polo and swam on the swim team. I was my high school valedictorian, and a member of the Chess and Math Clubs. Many of my friends describe me as a ‘hippie’ because I tend to wear colorful and unusual clothes and expound liberal and progressive ideas. While I am certainly a leftist, I like to think that I am more driven than the stereotypical hippie.

I have also been described as having an eclectic music taste. I enjoy klezmer, Celtic, Eastern European in general, blues, hip-hop, techno, rock and roll, reggae, ska, soul, ragtime, old time, bluegrass, punk rock, Balkan brass, and others.

What are your special interests and talents?

I love to play music! I write tunes and songs, and enjoy learning other peoples’ music as well. The music I enjoy playing most is Eastern-European folk music. I can play guitar, accordion, bass, and percussion (drum set, spoons, and washboard). I love to read- some of my favorite books are *Catcher in the Rye*, *The Old Man and the Sea*, and *The Communist Manifesto*. I spend a lot of time riding bicycles and performing bicycle maintenance, fixing up old bicycles and keeping mine running smoothly. I also enjoy going on hikes and spending time in nature, and making fermented foods. These include sauerkraut, kimchi, kvass, ginger beer, mead, and wine.

How would you describe your enjoyment of and skills in the following areas:

math: **I have always been very successful in math classes. My math test scorers are generally high, but I prefer humanities classes.**

mechanical: **I can perform most bicycle repair tasks, and enjoy bicycle repair.**

athletic: **I like to ride my bike, swim, and hike. I was a pretty good distance runner in high school.**

musical, artistic, creative: **I can play many instruments and enjoy writing music. I also like to paint my own and other’s faces.**

language (what languages do you speak?): **Spanish**

What are your goals and ambitions in life?

I want to save the planet from the system of capitalism and excess that is poisoning our minds and the environment! I want to influence people to localize their economies and help make communities self-sufficient, not dependent on goods from far away. I eventually would like to get married and have at most two children. I want to improve my accordion playing and expand my repertoire to the point where if I wanted to I could travel around and subsist by playing for money. I want to become a professor in some discipline at a university. I want to learn French, and improve my Spanish. I want to join the Peace Corps.

Why do you want to be a sperm donor?

I want to be a sperm donor because I know that parents who want children are the best parents, and I would like to increase the ratio of planned pregnancies to unplanned ones in society. If people want to have a baby and are prepared to raise one, then they should definitely be able to have that baby. Basically I would like to help people have children that they are going to love and care for.

Did you choose to be an Identity-Release® Program donor? Yes _____ No **X** Why did you make this choice?

I chose to remain anonymous because I was scared that I would feel pressured to construct an inorganic relationship if an adult offspring sought me out. With that said, I am open to learning more about the program, especially because I sympathize with the wish to know one's full health history.

What message would you like us to pass on to the people who are getting your sperm?

These are some things I feel are important in raising a child:

-If possible, have the child learn to play a musical instrument at a young age. I recommend the piano or violin. -Avoid taking the child to fast food restaurants, and strive to provide healthy food. -Read to the child nightly, and try teaching him or her to read at a very young age. -Send the child to public school.
