## Donor # 4452 Interview Notes

Donor 4452 was fun and engaging to talk to today. Dressed in loose khaki shorts and a short sleeved, blue plaid dress shirt, I could tell that Donor 4452 was about business with a smile. He describes himself to me as a calm, not easily panicked person with great mental strength and a strong work ethic. After our conversation, I am confident that all of these are true.

Donor 4452 comes from a large and tight knit family. Although he only has one brother, his maternal Grandmother birthed 8 children and fostered another 15, so there is a lot of family, in a lot of places. There is a 5 year difference between him and his brother and Donor 4452 explains that they are and have always been close; they even have matching tattoos. We talked about his favorite movie *The Boondock Saints*, a story centered on the bond between two brothers.

Donor 4452 spent his childhood moving around the US. At this point in his life he has visited 35 of the 50 States and has lived in 5 of them. Besides California, he said Missouri is his favorite. He moved to California in 2007 and loves it. *It's just awesome!* He explains the things he loves most about the Bay Area are the ocean, the diversity and the good eats. A great and avid athlete since childhood, Donor 4452 also likes to cook, his specialty being BBQing since he's good at making marinades and smoking food. He even took a supplemental culinary skills class throughout the 4 years of high school, alongside being a baseball champion and star member of the Debate Team.

Donor 4452 is currently in college and works hard to maintain a high GPA. In addition to his regular required classes and courses he says one of the best elective classes he's taken so far, one that he didn't expect to like, was *The History of Children's Literature*. He said he enjoyed leaning about the intricacies of Brothers Grimm and Hans Christian Anderson.

Donor 4452 has big plans for the future. Eventually he wants to fall in love and have children and live in California. In the meantime he wants to learn several languages and go to law school on the East Coast. And eventually, he wants to run for State Assembly. Donor 4452 comes across as a genuine and honest young man, eager for life and looking forward to all it has to offer.
