 *Other: CMV IgM is negative/IgG positive. This combination shows a historic CMV exposure and donor is presumed to currently be non-infectious.

DONOR NARRATIVE: Donor 4532

(The content of this narrative has not been altered by TSBC staff and there for reflects original written work of the Donor)

Describe your personality: introvert, extrovert, funny, serious, goal-oriented, curious, shy, etc.

I am very funny and open. My close family and friends would describe me as strong willed, determined, extroverted and outgoing. It is very easy for me to make friends in social circumstances and I would define my logic as ‘there is no such thing as strangers- just friends you haven’t met yet.’

What are your interests and talents?

I love politics. Politics to me, interests me a lot. I enjoy outdoor activities. Paintballing, hiking up to Mount Diablo, and exercising. I go to the gym almost every day. I like to read mystery stories, and watch action films.

What are some of your goals and ambitions in life? Where do you see yourself in 5 or 10 years?

5-10 years is a lot. In 5 years, I see myself in grad school with a full time job. Maybe politics or business or banking. 10 years- family? My own house- kids in near future.

How would you describe your skills and interests in the following areas?

Math: Not my best subject but I’m good at it. Math is right or wrong. No grey area. Too boring.

Mechanical: Very good at seeing where things go. I loved playing with Legos when I was younger.

Athletic: Very! Loves sports of all kind. Loves games and getting dirty and sweaty. Not so much cross-country running.

Musical, Artistic, Creative: I tried out for the choir team in High School. They were full and my ‘voice’ was too common.

Language (what languages besides English do you speak?): I speak Mandarin Chinese.

Writing: Writing is fun for me. I like expressing my creative thoughts on paper. In the future- I want to write mystery novels.

Literature: I like to Read interesting Books. Anything with a twist or Surprise will spark my interest.

Science: Soft sciences are a plus. Chemistry is also very interesting. Anything that will keep my attention focused.

If you were stranded on a deserted island and could only have one book, one movie and one album, what would they be?

Movie: *Saving Private Ryan*

Book: Shoo Fly Pie by Tim Downs

Album: **Any (All music has a meaning, anything would be a blessing)**

What are some of your reasons for becoming a sperm donor?

I wanted to bless other families that wish they could have the gift of a newborn baby, and to share love and peace.

Did you choose to be an Identity-Release® Program donor? Yes No

Why did you make this choice?

I had the advantage of being born and knowing who my biological parents were. If I was put into the situation, I would have a lot of questions. I need closure.

Would you like more information on our Identity-Release® Program? Yes No

Is there anything else you would like to share with participating families and offspring?

Thank you for taking the time to read this. I look forward in meeting the families I have helped and would be excited to find out in 18 years. I hope this would I hope this would be a start to a loving and peaceful family.
